

Developing World Markets Selected for the ImpactAssets 50 2013

Developing World Markets (“DWM”) has been selected as a leading Impact Investment Manager for the ImpactAssets 50 2013 (“The IA 50 2013”), an annually updated list of the top 50 impact investment firms, for the third year in a row. DWM has been recognized for its success in managing private debt and equity investment vehicles that connect inclusive financial institutions in developing markets with investors in international capital markets.

The IA 50 2013, an open-source, public database of private debt and equity investment fund managers, represents \$10.8 billion of capital in impact investments. A Selection Committee chaired by ImpactAssets’ Chief Strategist, Jed Emerson, and comprising industry experts, selects firms according to a set of criteria based on experience, impact, and with an eye toward reflecting the diversity of impact investment opportunities.

“DWM is proud to be recognized for its contributions in the impact investing industry,” said DWM Co-Founding Partner Peter Johnson. “DWM’s core mission is to create positive social impact in developing economies. We are incredibly honored to be recognized as one of the top impact investment firms for the third year running.”
